Fees & Charges

PRICING POLICY

for Fees and Charges 2017–18

In accordance with Section 608 of the *Local Government Act 1993* and other relevant legislation, Randwick City Council charges and recovers approved fees and charges for any services it provides as contained within the document entitled "Fees and Charges – 2017–18".

Fees and charges are generally intended to be imposed on the following services provided by Randwick City Council under the *Local Government Act* or any other Act or regulations:

- Supply of a product, service or commodity;
- Giving of information;
- Providing a service in connection with the exercise of the Council's regulatory functions, including receiving an application for approval, granting an approval, making an inspection and issuing a certificate;
- Allowing admission to any building or enclosure;
- Possession, occupation or enjoyment of a rail, pipe, wire, pole, cable, tunnel or structure laid, erected, suspended, constructed or placed on, under or over a public place (s.611)
- Allowing the use or benefit from Council's assets, possessions, etc.

Randwick City Council's general policy in determining the amount of fees to be charged for goods and services considers the following factors:

The cost of providing the service

- The importance of the service to the community
- Prices fixed by the relevant industry body
- Any factors specified in the Local Government Regulations
- Equity factors
- User pays principle
- Financial objectives
- Customer objectives
- Resource use objectives
- Market prices
- Cross subsidisation objectives
- Goods and Services Tax (GST)

In cases where the amount of fees and charges for service is determined under another Act or regulatory body, Council's policy is not to determine an amount that is inconsistent with the amount determined under the other Act or regulatory body.

Pricing Methodology

The various methods of determining pricing, which have been implemented by Council, are:

1 – Partial Cost Recovery

2 – Full Cost Recovery

3 – Market Competitive

4 – Regulated and Proscribed

5 – Overdue Fees

6 – Bonds and Deposits

1 – Partial Cost Recovery

- The benefits from provision of the service accrue to the community as a whole as well as individual users;
- Charging prices to recover the full/true cost may result in widespread evasion;
- The service is targeted to low income users or a differential service fee is charged according to the classification of users to maximise access to the service
- The service promotes or encourages local economic activity.

2 – Full Cost Recovery

- The service benefits particular users, making a contribution to their individual income, welfare or profits or a private benefit being provided without any broader benefits to the community;
- Council has a monopoly over the provision of the service and there are no community service or equity obligations.

3 – Market Competitive

- The service provided is in competition with that provided by another Council or agency (private or public) and there is pressure to set a price which will attract adequate usage of the service;
- The service is a profit making activity and the price paid by users should recover an amount greater than the full cost of providing the service.

4 – Regulated and Proscribed

- The service is a regulatory or statutory service where the fee is determined by Council in accordance with a pricing principle prescribed in regulations (e.g. a maximum price);
- The amount of the fee is prescribed in regulations or determined by the Chief Executive Officer of the Office of Local Government or another authorised authority. Council has no discretion to determine the amount of the fee for a service when the amount is fixed by regulation or by another authority.

5 – Overdue Fees

- Overdue fees are levied on library items to discourage the late return of borrowed items.

6 – Bonds and Deposits

- Security damage deposits may be requested for the payment of making good any damage caused to Council property and/or completing any works required in connection with the approval, in accordance with Section 68 of the *Local Government Act 1993*.
- At first instance, Security/Bonds/Refundable Deposits will not attract GST. But in the case where council claims the full or partial Security/Bond/ Refundable deposit that portion will then attract GST.

A policy code reference is quoted against each fee and charge in relation to the pricing methodology.

All of Council's fees and charges **not subject to statutory control** are reviewed on an annual basis prior to finalisation of Council's annual operating budget. However, in special circumstances, fees and charges can be reviewed and approved by Council in accordance with the *Local Government Act 1993* and Regulations.

In accordance with Section 612 of the *Local Government Act 1993*, Randwick City Council will give public notice of at least 28 days of changes in fees and charges already adopted.

The predominant consideration in reviewing these fees and charges shall be full/true cost recovery or market price on a fee for service ("user pays") basis. However, this principle will only be applied where the cost of the service provision can be accurately determined and the end user can be easily identified.

The price of goods and / or products offered for sale at Council events and venues, at the option of the purchaser, where is no compulsion to buy, will be set at cost recovery plus a margin. These prices may vary from time to time.

Goods & Services Tax (GST)

Fees and charges may include the Goods and Services Tax (GST). GST is a broad-based tax of 10 per cent on the supply of most goods and services consumed in Australia.

The impact of GST on fees and charges is:

- Where fees attract the GST this amount has been included and is shown in a separate column.

The following schedule of fees and charges has been prepared in accordance with the *A New Tax System (Goods and Services Tax) Act 1999*.

If there is any change to the GST status of any of Council's Goods and Services throughout the year following ATO rulings or any other legislative change, the new GST treatment will be applied immediately to the relevant fees and charges.

Confidential Fees and Charges

Section 201(4) of the *Local Government (General) Regulation 2005* states that:

"The statement of fees and the statement of the pricing methodology need not include information that could confer a commercial advantage on a competitor of the Council."

In accordance with this section, fees and charges on the following services are not included in the statement of fees and charges on the grounds that publication of those fees would grant commercial advantage to competitors:

- Community Nursery
- Trade Waste Services
- Building Certification Services
- Prince Henry Centre – Commercial Rates
