

07 March 2019

Ref No: F2004/08046

Dear Coogee Precinct

Coogee Precinct Meeting 17 December 2018

Thank you for the minutes of the Coogee Precinct, 17 December 2018. The Council notes the contents of these minutes and I am able to provide you with the following information in response to resolutions of the meeting.

Resolution 40/18: *Given the dire situation with water pollution in Coogee Bay and the health issues and associated costs to the community, that Council through the Committee investigate the feasibility of laying a separate stormwater pipe from Coogee to Malabar thus avoiding the trade waste issue.*

And

Resolution 42/18: *That, if the Dolphin Point outfall is the recommended mitigation measure, it should include piping the stormwater out to sea, if not for 3 kilometres then to a distance that prevents the stormwater from coming back into the bay.*

The Precinct's request has been forwarded to Council's Manager Technical Services, Mr Joe Ingegneri, for the consideration of the Coogee Beach Stormwater Working Group.

Resolution 41/18: *That Council consider including water sensitive urban design requirements in the LEP and include reinstating the requirement for deep soil planting.*

The Precinct's request has been forwarded to Council's Manager Strategic Planning, Mr Alan Bright, and the Manager Technical Services, Mr Joe Ingegneri for consideration.

Resolution 45/18: *That Council provide an update on this item*

A community consultation on improving Neptune reserve was run from 16 January to 19 February 2019. Over 600 survey submissions were received. A report on the result of the consultation is currently being prepared for Council.

Resolution 34/18: *removal of items from yellow bins*

The following response was emailed to the Precinct on 13 February 2019:

1. The legality of people removing items from yellow lid bins for use in Return and Earn units

Under the Container Deposit Scheme (CDS) legislation the redeemable money (\$0.10 per container) belongs to the residents and NSW Government encourages the money to be redeemed by the residents. However, if the residents do not take their containers at CDS collection points to redeem the deposit and rather put in their recycling bins, they are collected by Council. Collected containers with other recyclables are taken to a Material Recovery Facility (MRF) for recycling under a contract. The CDS legislation allows the MRF contractor redeem the deposit using a complex auditing protocol until 30 November 2018 and requiring them to sign a refund sharing agreement with Council to continue redeeming container deposit passed that date. Like many other councils, Randwick Council has not yet been successful in signing any agreements with the current contractor. From 1 December 2018 until now no refund has been claimed by the MRF contractor.

It is understood that currently some residents have come in arrangements with charity organisations or individuals to take their CDS eligible containers and redeem.

2. A telephone number for people to use when such activities are observed

If someone is removing CDS eligible containers from residents' yellow-lid bins without their consent, the resident should inform police as it is a civil matter.

3. An estimate of the cost to Council of lost revenue from such diversion of recycling

It is observed that residents are increasingly redeeming their containers and the quantities of CDS eligible containers in yellow-lid bin are diminishing. Until the MRF contractor agrees to sign a refund sharing agreement and the quantities of eligible containers in yellow lidded bins are known, it is not possible to make any estimate of revenue loss.

Resolutions 35/18 and 36/18: *Operational Plan and Budget items*

The Precinct's suggestions for the 2019/20 Draft Operational Plan and Budget were received and are currently being considered by Council.

Resolution 39/18: *Resolution 39/18: That Council investigate the degraded state of the small reserve at the top of the Cairo Street steps (on Denning Street) with the eroded edge and bare ground and advise on what actions Council will take to restore it to the attractive and safe area it once was.*

On 16 January 2019, the following response was provided to the precinct:

Council's Supervisor Nursery and Streetscape, Mr Nicholas Rennenberg has investigated the Precinct's request and provided the following response:

The area described is seriously eroded due to the heavy use by people exercising on the Coogee stairs. The standard and least costly response to the problem may be to turf the area. However, it is believed that new turf would quickly be eroded, again due to its use by people exercising in that space.

To avoid continual erosion of new turf, the area would need to be concreted or have soft fall (such as in playgrounds) installed. Of these two options, soft fall would be the most appropriate solution due to the nature of the activities in the area.

Council's Community Consultation Officer will be in touch with the Precinct Executives to discuss the issue. Once the scope of the works requested has been determined, Council can cost the job and determine whether it can be undertaken this financial year and report back to the Precinct.

Yours sincerely,

Amanda Mather

Community Consultation Officer

Amanda.mather@randwick.nsw.gov.au
