

Submitted Events Guidelines

Randwick City Council publishes submitted events on its online What's On Guide as a community service. Submitted events are clearly marked and the details and accuracy are not checked or verified by Council.

Randwick City Council's What's On is available to promote events that:

- occur within the Randwick City Local Government Area;
- are open to the general public and have a broad appeal for people from the local community as well as visitors to our area;
- create a sense of community and sense of place within Randwick City;
- are arts, cultural activities, and sporting events of public interest; and
- promote community run, not-for-profit events

By submitted and event, you (the submitter), agree that:

- you are authorised to submit information about that event;
- Council has the right to not publish, edit or remove any submitted event for any reason;
- Council is not responsible for the accuracy of the event Details (its the responsibility of the person/s listing their event to ensure the accuracy of the information and that the information does not contain any errors or omissions);
- you have the relevant approvals, booking and licenses (where relevant) to hold the event;
- Randwick City Council shall not be liable, to the extent permitted by law, for any loss or damage whatsoever which is suffered (including but not limited to indirect or consequential loss) or for any person injury suffered or sustained in connection with any use of or reliance on any information contained in the What's On Guide.

Events Held by a business that relates to their core business activities may not be published.

Publication of a submitted event on Council's website does not necessarily mean that Council supports the event.

Where the details of an event change, it is the event submitter's responsibility to contact Council. Council will delete events upon request but will not edit the event.

While Council will make every effort to publish your event quickly, there may be times when the publication process may take a number of days.
