Fees and Charges

Randwick City Council
a sense of community

Pricing Policy

In accordance with Section 608 of the *Local Government Act 1993* and other relevant legislation, Randwick City Council charges and recovers approved fees and charges for any services it provides as contained within the document entitled "Fees and Charges 2026-27".

Fees and charges are generally intended to be imposed on the following services provided by Randwick City Council under the *Local Government Act* or any other Act or regulations:

- Supply of a product, service or commodity;
- Giving of information;
- Providing a service in connection with the exercise of the Council's regulatory functions, including receiving an application for approval, granting an approval, making an inspection and issuing a certificate;
- Allowing admission to any building or enclosure;
- Possession, occupation or enjoyment of a rail, pipe, wire, pole, cable, tunnel or structure laid, erected, suspended, constructed or placed on, under or over a public place (s.611)
- Allowing the use or benefit from Council's assets, possessions, etc.

Randwick City Council's general policy in determining the amount of fees to be charged for goods and services considers the following factors:

- The cost of providing the service
- The importance of the service to the community
- Prices fixed by the relevant industry body
- Any factors specified in the Local Government Regulations
- Equity factors
- User pays principle
- Financial objectives
- Customer objectives
- Resource use objectives
- Market prices
- Cross subsidisation objectives
- Goods and Services Tax (GST)

In cases where the amount of fees and charges for service is determined under another Act or regulatory body, Council's policy is not to determine an amount that is inconsistent with the amount determined under the other Act or regulatory body.

Pricing Methodology

All of Randwick City Council's fees and charges that are **not subject to statutory control** are reviewed on an annual basis prior to finalisation of the Council's annual operating budget. However, in special circumstances, fees and charges can be reviewed and approved at other times by the Council in accordance with the Local Government Act and Regulations.

In accordance with Section 612 of the *Local Government Act 1993*, the Council will give at least 28 days public notice of changes of fees and charges already adopted within the Operational Plan.

The various methods of pricing which have been implemented by the Council are categorised as follows:

1 – Partial Cost Recovery

2 – Full Cost Recovery

3 – Market Competitive

4 – Regulated and Prescribed

5 – Bonds and Deposits

6 – Conditions of Grant Funding

1 – Partial Cost Recovery refers to situations where less than full cost is recovered from the price charged for the service. Situations where partial cost recovery may apply include:

- where benefits from provision of the service accrue to the community as a whole as well as individual users;
- a short-term approach to stimulate demand for a service where charging prices at full price may result in service evasion.

2 – Full Cost Recovery refers to recovering all the direct and indirect costs involved in providing a service through the price charged for that service.

3 – Market Competitive involves selecting price points based on market competition. Comparatives are made with businesses offering the same or similar services.

4 – Regulated and Prescribed apply when the fees are prescribed by State or Federal Government legislation. In the event of legislation introducing a new or amended statutory/regulatory fee subsequent to adoption or printing of this document, the Council may apply these new charges without further notice.

5 – Bonds and Deposits are refundable payments that may be requested as a security for making good any damage caused to Council property and/or completing any works required in connection with an approval.

- At first instance, Security/Bonds/Refundable Deposits will not attract GST. But in the case where council claims the full or partial Security/Bond/ Refundable deposit that portion will then attract GST.

6 – Conditions of Grant Funding pricing applies to fees that are subject to eligible state and federal grants whereby Council is bound by their contractual terms and conditions, including applicable limits to chargeable fees.

A policy code reference is quoted against each fee and charge in relation to the pricing methodology.

The predominant consideration in reviewing these fees and charges shall be full/true cost recovery or market price on a fee for service ("user pays") basis. However, this principle will only be applied where the cost of the service provision can be accurately determined and the end user can be easily identified.

The price of goods and / or products offered for sale at Council events and venues, at the option of the purchaser, where there is no compulsion to buy, will be set at cost recovery plus a margin. These prices may vary from time to time.

Goods & Services Tax (GST)

Fees and charges may include the Goods and Services Tax (GST). GST is a broad-based tax of 10 per cent on the supply of most goods and services consumed in Australia.

The impact of GST on fees and charges is: where fees attract the GST this amount has been included and is shown in a separate column.

The following schedule of fees and charges has been prepared in accordance with the *A New Tax System (Goods and Services Tax) Act 1999*.

If there is any change to the GST status of any of Council's Goods and Services throughout the year following ATO rulings or any other legislative change, the new GST treatment will be applied immediately to the relevant fees and charges.

Confidential Fees and Charges

Section 201(4) of the *Local Government (General) Regulation 2005* states that:

"The statement of fees and the statement of the pricing methodology need not include information that could confer a commercial advantage on a competitor of the Council."

In accordance with this section, fees and charges on the following services are not included in the statement of fees and charges on the grounds that publication of those fees would grant commercial advantage to competitors:

- Community Nursery
- Trade Waste Services
- Building Certification Services

DEVELOPMENT APPLICATIONS

1. Activities may be subject to further fees and charges (if approval is granted to the application) as detailed in other sections of this Pricing Policy, including Parks & Recreation and Roads & Drainage.

2. Exemptions and Reductions in Fees

(a) Activities to be carried out by Randwick City Council may be exempted from payment of the specified fees and charges.

(b) Council may provide for a reduction or exemption in fees (unless affixed by Regulations) if it is considered by the Council, Director or Manager (after assessment of a written request) that the specified fee is inappropriate or unreasonable or should be waived having regard to the nature of the specific activity / matter or in exceptional circumstances (i.e. for charities, community events or the like).

3. Refund of Fees

Consideration will be given to a written request for a refund of a particular fee or charge paid to the Council. Any refund will be proportionate to the extent of administrative and professional works carried out to the date of the request.

Assessment Services

The fee determined by the consent authority must accompany the application. In the case of a building or works, the fee is based upon the estimated cost of that building or works as detailed in Section 255 of the Environmental Planning and Assessment Regulation 2000.

Note: It is recommended that you contact Council to obtain a written fee quote prior to lodging your application.

1 - DEVELOPMENT APPLICATIONS

The total fee is made up of:

- A) Assessment Fee
- B) Notification and Advertising
- C) Information Management Fee
- D) Integrated Development and Concurrence Fee (if applicable)

ENGINEERING SERVICES

Roads Maintenance

Conditions applicable to Restorations

Rates quoted 1.00m and/or 1.00 sqm are the minimum charges. Amounts over and above the minimum charges will be calculated in increments of 0.1m and/or 0.1 sqm. Where, in the opinion of the Engineer, the opening of the concrete pavement requires renewal of the whole slab, the opening shall be charged accordingly.

If unreasonable subsidence occurs as the result of improper consolidation of the back filling, a further charge will be made for additional work performed by Council.

Council's standard requirements for approval of openings, backfilling and compaction are to be observed.

All additional work required to be done by Council due to non-compliance with the standard opening requirements will be charged to the opening authority.

Costs associated with traffic control, sweeping, general cleanup, removal and disposal of materials are included in the below rates.

If night works are required, surcharge will be 40% of standard rates.
