EXEMPT AND COMPLYING DEVELOPMENT

Where tree removal/pruning approval is granted as part of Exempt and Complying Development, a condition of consent will apply, prohibiting any tree works to be carried out until the complying development certificate is issued from your certifier.

Should consent not be granted to prune or remove a tree or trees, you can lodge a development application for the proposed work. This allows the matter to be considered in more detail and may require additional information such as an arborist's report or root mapping report.

REVIEW OF DECISION

Any applicant who is dissatisfied with Council's decision can request a review by lodging a Request for a Review of a Determination outlining the reasons for seeking the review and attaching any relevant **new** information. This information should include documentation such as a detailed arborist's report, a structural engineer's report and/or a plumber's report with diagrams of any affected/damaged pipes and/or underground services.

Upon receipt of any such request Council will review the documentation and if the new information provides enough evidence to then support a decision to approve the request a final decision will be made to either approve or refuse the review.
