GENERAL NOTES

- Separate items in the checklist do not imply separate plans/sections in the report; i.e. different items may appear on the same plan.
- The CTMP is for the excavation, demolition and construction of building works, not for road works (if required) associated with the development. Any road works will require the Applicant or the contractor to separately seek approval from Randwick City Council and/or RMS for consideration. Also Work Cover requires that Traffic Control Plans must comply with Australian Standards 1742.3 and must be prepared by a Certified Traffic Controller (under RMS regulations).
- Provision of any information in this CTMP will not exempt the Applicant from correctly fulfilling all other conditions relevant to the development consent for the above site.
- A copy of the approved CTMP must be held on-site and be available for inspection by Council officers (Including Rangers) if requested.

DECLARATION

By signing below, the applicant confirms that all applicable items checked above are properly presented in the report, that all non-applicable items will not be changed without approval from Randwick City Council, and that all items including notes will be complied with prior to/during implementation of the CTMP.
