

Maroubra Precinct - Status of Resolutions as at 1 October 2026

Meeting	Officer Responsible	Agenda Section	Report Number	Subject
Maroubra Precinct Committee 2/02/2026	Ko, Frank	Precinct Resolution	1/26	Resolution 020226(1) - Catholic Healthcare development
<u>Precinct Resolution 1/26</u>				
The Maroubra Precinct Committee requests that Council investigate the option of providing, say, 25 more on-site car parking spaces as a condition for approval. It is acknowledged that this may be a challenge at this late stage to expand the proposed underground parking facility to cater for additional parking spaces, so perhaps consideration could be given to the development of a second underground car park beneath the proposed open park area on the south-eastern corner of the site adjacent to Mons Avenue.				
<u>Council Response:</u>				
Response provided to Precinct on 06 March 2026. Council officers note the Committee's request that Council investigate the possibility of providing approximately 25 additional on-site parking spaces as a condition of consent. The suggestion that this could potentially be achieved through expansion of the proposed underground parking facility, or alternatively through the development of a second underground car park beneath the proposed open park area on the south-eastern corner of the site adjacent to Mons Avenue, has been acknowledged. At this stage, the request will be forwarded to the applicant for their consideration and discussion as part of the ongoing assessment process. Any response or updated information provided by the applicant will be reviewed by Council and included in the assessment report for the determination by the Sydney Eastern City Planning Panel.				

Meeting	Officer Responsible	Agenda Section	Report Number	Subject
Maroubra Precinct Committee 2/02/2026	Scott, Duncan	Precinct Resolution	2/26	Resolution 020226(2) - Arthur Byrne Reserve
<u>Precinct Resolution 2/26</u>				
The Maroubra Precinct Committee requests that Council investigate options with the view to stopping the loud groups monopolising Arthur Bryne Reserve especially on weekends and holiday days - similar to what Council did at Coogee beach - to enable local families to be able to return to the park and enjoy the park peacefully as intended.				
It is anticipated that Council could possibly achieve a positive outcome by undertaking the following suggested methods:				
i. Rangers to be stationed on Arthur Bryne Reserve on weekends to stop the setting up of generators and loud speakers, similar to what was done on New Year's Eve and what was done in Coogee about 10 years ago.				
ii. Sprinklers from the underground water tank be turned on at sunset on weekends to water the parched looking ground.				
iii. The new toilet block closed at sunset.				

Maroubra Precinct - Status of Resolutions as at 1 October 2026

iv. Use of the portable illuminated signs on the entry of the road to South Maroubra Surf Club, informing visitors of the rules of no amplifiers and no consumption of alcohol after sunset. Similar to the signs that were around in the holiday period for indicating the alcohol ban at the beach parks.

Council Response:

Response provided to Precinct on 27 May 2026. Council acknowledges the concerns raised by the Maroubra Precinct Committee regarding the use of Arthur Byrne Reserve, particularly during weekends and holiday periods, and the impact on local amenity.

Council Rangers regularly patrol all open spaces across the local government area, including Arthur Byrne Reserve. However, it is not considered practical to station Rangers at the reserve on a permanent basis. Patrol frequency may be increased in response to favourable weather conditions or where specific information is received regarding groups using the location and potentially impacting amenity. As well as this Council Rangers frequently respond to complaints received by members of the public regarding unauthorised activities and amplified music. Where breaches of local regulations are identified appropriate regulatory action is taken.

Council also frequently liaises with NSW Police regarding both planned and unplanned events across the local government area, including within Arthur Byrne Reserve. This coordination assists in assessing the level of impact associated with gatherings and determining whether additional resourcing or enforcement responses are required.

With respect to the suggested use of irrigation, this matter has been referred to Council's Open Spaces team for assessment. Notwithstanding this, Council does not support the use of sprinkler infrastructure for the purpose of dispersing groups who are otherwise making reasonable use of the reserve.

The operating hours of public facilities, including the new toilet block, are regularly reviewed and adjusted in consultation with Council's Public Cleansing team. Experience indicates that closing facilities too early can lead to an increase in complaints, as well as unintended outcomes such as vandalism and public defecation.

Council currently installs variable message signage (VMS) during peak periods to communicate key rules, including the prohibition of alcohol in public places, and will continue to utilise these tools as part of its management approach.

Council will continue to monitor activity at Arthur Byrne Reserve and consider appropriate management responses to balance community access, amenity and appropriate use of this important public space.

Maroubra Precinct Committee 13/04/2026	Hay, Joshua	Precinct Resolution	3/26	Resolution 15042026(1) – Prior Meeting
---	--------------------	--------------------------------	-------------	---

Precinct Resolution 3/26

The Maroubra Precinct Committee expresses its extreme disappointment with the decision by Messrs Brownlee and Clarke to not attend the meeting and to address community concerns and answer questions as had been previously arranged with Council

Council Response:

Maroubra Precinct - Status of Resolutions as at 1 October 2026

We understand and share the disappointment that staff were unable to attend on this occasion., As you know, Council staff have attended Maroubra Precinct meetings on many occasions to provide information and answer questions from local residents across a range of issues. Staff have also attended Precinct meetings in Coogee, Clovelly and the Bays and Beaches precincts to discuss visitor pay parking. These meetings were conducted in a constructive and respectful manner., In this case, the 13 April meeting was publicly promoted as a rally, and Council was advised that media attendance was anticipated. While Council respects the community's right to organise protests or rallies, these activities are not appropriate within a Precinct meeting setting., Council has a duty of care to its staff, and it is not appropriate to place staff in a situation where they may be subject to a rally environment or be filmed and broadcast without their consent., We acknowledge that the rally may have been organised without the knowledge of the Precinct Executive. However, the outcome was a meeting that did not align with the intent of the Precincts Partnership Agreement, which is based on mutual respect for differing perspectives, knowledge and time., Should the Precinct wish to convene a future Precinct meeting focused on constructive discussion, Council staff would be pleased to attend.

Maroubra Precinct Committee 13/04/2026	Havenstein, Eva	Precinct Resolution	7/26	Resolution 15042026(5) – Parking Issues on Hereward Street
<u>Precinct Resolution 7/26</u> The Maroubra Precinct Committee requests Council to investigate the seeming cause of parking issues for local residents in Hereward Street (near McKeon Street) re marking of lines being very faded with the view of repainting as a matter of urgency and as required. <u>Council Response:</u> Response provided to the Precinct on 21 May 2026. The Maroubra Precinct Committee requests Council to investigate the seeming cause of parking issues for local residents in Hereward Street (near McKeon Street) re marking of lines being very faded with the view of repainting as a matter of urgency and as required”, I am pleased to let you know that we are able to add this to our list of lower priority line markings. We are currently experiencing a high level of requests for line marking, with safety concerns taking priority. Please allow upto 8 months for this to be reinstated.				

Meeting	Officer Responsible	Agenda Section	Report Number	Subject
Maroubra Precinct Committee 18/05/2026	Taylor, Kara	Precinct Resolution	8/26	EV Charging Station
<u>Precinct Resolution 8/26</u>				

Maroubra Precinct - Status of Resolutions as at 1 October 2026

The Maroubra Precinct requests Council to investigate the extent of the use of the EV charging station located at 17 Hereward Street and provide information to the Precinct and have its rangers police this location for illegal parking.

Council Response:

Response provided to the Precinct on 25 June 2026. The charger at 17 Hereward St, Maroubra is a non-dedicated charger (i.e. there is no dedicated EV charging parking signage or linemarking) which has had very low usage. It was averaging around 1 session per month until December 2025 but has not had any sessions in 2026. As requested in the motion, Council will send rangers to check if there are any trailers or vehicles left in the spaces adjacent to the pole.

To provide some more background information about the non-dedicated parking spaces, they are being trialled by the charging companies such as AGL, as a means of installing more chargers in the community whilst balancing the parking demand of electric and non-electric vehicles. Over 200 charging spaces have been installed across the eastern suburbs in the past 12 months, of which approximately 20% are non-dedicated. Non-dedicated sites may be converted to dedicated over time as demand increases.

You can see a map of all planned chargers and sites being converted here: <https://haveyoursay.waverley.nsw.gov.au/public-electric-vehicle-charging-infrastructure>, The nearest charger with dedicated parking is on Mons Ave (350 meters away). A fast charger with dedicated parking is also planned near Mahon Pool (800 meters away)., If you have any further questions I would be happy to assist further.

Meeting	Officer Responsible	Agenda Section	Report Number	Subject
Maroubra Precinct Committee 18/05/2026	Havenstein, Eva	Precinct Resolution	9/26	Mahon Pool Traffic Flow

Precinct Resolution 9/26

The Maroubra Precinct requests Council to investigate the increasing safety issues around Mahon Pool carpark and investigate the traffic flow in and out of the carpark.

Council Response:

Response provided to the Precinct on 3 June 2026. Investigation into Mahon Pool found no outstanding safety issues. Entry/Exits have adequate sightlines and all signage/linemarking is in good condition.

Meeting	Officer Responsible	Agenda Section	Report Number	Subject
Maroubra Precinct Committee 18/05/2026	Bush, Mark	Precinct Resolution	10/26	Swimming Flags at the North End of Maroubra Beach

Precinct Resolution 10/26

Maroubra Precinct - Status of Resolutions as at 1 October 2026

In the interest of public safety, the Maroubra Precinct requests Council to investigate and reconsider its previous decision Council to investigate and reconsider its previous decision to permanently remove the swimming flags at the very north end of Maroubra Beach and reinstate a patrolled swimming zone subject to the lifeguards on duty on any day considering it safe to be able to swim.

Council Response:

Email sent to Precinct on 12 August 2026. Council lifeguards conduct daily risk assessments across the entire beach. For public safety, the northern end of Maroubra Beach is consistently assessed as unsafe for swimming due to the presence of rocks, strong rip currents, and constantly changing sand conditions. Previously, lifeguards have not established a flagged swimming area at the northern end because of these hazards. The area is signposted as a dangerous swimming area, and hazards are included in daily beach condition reports. For these reasons, Council does not support reinstating a patrolled swimming zone at the northern end of Maroubra Beach.

Meeting	Officer Responsible	Agenda Section	Report Number	Subject
Maroubra Precinct Committee 18/05/2026	Edwards, Lauren	Precinct Resolution	11/26	Safety concerns re charging of lithium batteries

Precinct Resolution 11/26

In the interest of public safety the Maroubra Precinct requests Council to advise if they have any ideas or suggestions that could assist people in charging lithium batteries and e-bikes more safety especially in unit blocks.

Council Response:

Email sent to precinct on 28 May 2026. Dear Maroubra Precinct,

I refer to your recent resolution 11/26, dated 18 May 2026, regarding safety concerns associated with the charging of lithium ion batteries. Council acknowledges the increasing popularity of electric vehicles and micromobility devices (such as e-bikes and e-scooters) within the local area, and the associated concerns arising from the growing presence of lithium ion batteries in residential settings. While the uptake of these technologies offers significant environmental and transport benefits, they also present certain risks and hazards if not managed appropriately. Council recognises there is growing community concern regarding the safe use, storage, and charging of lithium ion batteries, particularly in higher density residential environments. While lithium ion batteries are generally safe when used in accordance with manufacturer instructions, they can present a fire risk if damaged, improperly charged, or used with incompatible equipment. These risks are of particular concern in multi unit residential settings, where an incident may affect common areas, emergency access, and multiple occupants. The regulation of product safety, electrical standards and battery compliance is primarily the responsibility of State and Federal authorities, including agencies such as NSW Fair Trading and the Australian Competition and Consumer Commission. , NSW Fair Trading have shared some information on how to choose a safe e-bike, e-scooter or other e-micromobility product, and how to safely charge, store and recycle the lithium-ion battery in vehicles to avoid fire risks. This information can be found here. NSW Fire and Rescue are currently conducting research on how best to mitigate incidents involving these technologies. While research is ongoing, they have provided useful information in relation to lithium battery and charging safety, particularly for micromobility devices (such as e-bikes and e-scooters) and electric vehicles, including safe storage and charging practices. , This information can be found below:

- E-bikes, e-scooters, and other light electric vehicles (LEV) – E-bikes, e-scooters, and other light electric vehicles (LEV) - Fire and Rescue NSW
- Electric vehicles - Electric vehicles - Fire and Rescue NSW, Council can assist by sharing updates or general information with the community through its communications channels where appropriate.

Maroubra Precinct - Status of Resolutions as at 1 October 2026

However, Council does not have a dedicated team to specifically investigate lithium battery fires and storage and instead relies on specialist departments and relevant external agencies for advice and action. Any information or guidance provided by NSW agencies (such as Fire and Rescue NSW or other authorities) will be taken into account., Thank you for bringing this important matter to Council's attention and we hope the above information assists.

Meeting	Officer Responsible	Agenda Section	Report Number	Subject
Maroubra Precinct Committee 29/06/2026	Havenstein, Eva	Precinct Resolution	12/26	Resolution 29062026 (1) Anzac Parade
<u>Precinct Resolution 12/26</u>				
That the Maroubra Precinct requests Council to fully investigate the abovementioned key items with those entities/authorities directly responsible for their maintenance and seek solutions and scope of works necessary and, most importantly, timeframes for solutions to be implemented to fully restore Anzac Parade to an acceptable condition to ensure safety restore Anzac Parade to an acceptable condition to ensure safety for road users. <u>Council Response:</u> Email sent to precinct on 20 July 2026. Thank you for raising the Precinct's concerns regarding the condition of Anzac Parade., Council can confirm that Anzac Parade is not a Council-owned or maintained road. It is under the care and control of Transport for NSW (TfNSW), with maintenance works undertaken by their contractor, Connect Sydney. In response to the concerns raised, Council officers have contacted Connect Sydney and requested that they investigate the reported issues and undertake any necessary maintenance and rectification works. Council has also asked that the reported defects be assessed and prioritised as appropriate., Council appreciates the Maroubra Precinct's assistance in providing photographs and an itemised list of the affected locations. This information will help Council accurately identify the reported issues and refer them to the appropriate authority for investigation and action. Council will continue to liaise with the responsible authority and advocate for the timely investigation and maintenance of Anzac Parade in the interests of road user safety and the amenity of the local community.

Maroubra Precinct Committee 29/06/2026	Bush, Mark	Precinct Resolution	13/26	Resolution 29062026(2) Cleanliness of Maroubra Junction medium strip carpark
<u>Precinct Resolution 13/26</u>				

Maroubra Precinct - Status of Resolutions as at 1 October 2026

That the Maroubra Precinct requests Council to organize attending to clean up the carpark in the medium strip at Maroubra Junction (especially near the Maroubra Road intersection)

Council Response:

Email sent to precinct on 29 July 2026.

Dear Maroubra Precinct, Council officers have placed the area on a weekly cleaning schedule, with jet blasting now undertaken each week to improve cleanliness within the median strip carpark at Maroubra Junction. This will assist in addressing the accumulation of bird droppings and cigarette litter in the area.

Maroubra Precinct Committee 10/08/2026	Zammit , Ryan	Precinct Resolution	14/26	Resolution 10082026(1) - Fire Break Zone

Precinct Resolution 14/26

The Maroubra Precinct expresses its bitter disappointment with the total lack of response by Council Senior Management in respect of the “fire break” zone and request Council to provide an immediate update.

Council Response:

Email sent to precinct on 31 August 2026.

Dear Maroubra Precinct, Thank you for your email., Please be advised that Council officers met with officers from the NSW Rural Fire Service in August to assess the area. Council is currently awaiting feedback from this assessment and will provide an update to the Committee once that feedback has been received. If you have any questions, please do not hesitate to contact me.
