# 1. The Collection Development Policy

## 1.1 Definition

The Collection Development Policy (the Policy) states how the library identifies, selects, and manages resources required to meet the changing needs of our customers.

Documents informing the Policy include:

- Library Act 1939 and Regulations issued under the Act by the Library Council of NSW
- Australian Library and Information Association (ALIA) Free Access to Information Statement –

- Australian Library and Information Association (ALIA) and Australian Public Library Alliance (APLA) joint support of freedom of access to information in Australia:

- State Library of NSW statement –

The State Library of NSW supports free and equitable access to books and information. Public libraries in NSW operate in accordance with the Library Act 1939 and Guidelines issued under the Act by the Library Council of NSW. The guidelines make it clear that the community can expect to enter their local library and access any book not subject to Commonwealth restriction.

- NSW Public Libraries statement:

NSWPLA stands in support of upholding the principles of freedom of access to information as outlined in the Australian Library and Information Association (ALIA) statement and encourages all stakeholders to work collaboratively to ensure that public libraries continue to serve as inclusive spaces for all members of the community.

NSWPLA recognises the important work that council-run public libraries across NSW undertake each and every day to provide opportunities for people of all backgrounds and identities to have the freedom to read and access information in safety and without judgement.

## 1.2 Randwick City Council's Vision

"Randwick City Council's vision is to build "a sense of community". We are achieving this through our mission statement of "working together to enhance our environment, celebrate our heritage and to value and serve our diverse community"

(Source: The Randwick City Plan, 2006)

The vision for the Randwick LGA focuses on three key areas:

- our unique coastal environment
- our strong sense of community and
- the sustainability of our natural and built environment.

<https://www.randwick.nsw.gov.au/about-us/integrated-planning-and-reporting/our-vision>

An awareness of the community profile including demographic trends and knowledge of the customer base are vital in planning and building the collection. This is based on census and RCL customer demographics and usage and the library's annual Public Libraries Statistical Return.

### **1.3 Responsibility**

Responsibility for the Policy and for developing the Library's collection rests with the Collection Services Librarian in consultation with a team of specialist library staff.

### **1.4 Purpose of the Policy**

- To inform stakeholders of the range and depth of the Library's collections
- To guide planning
- To demonstrate accountability
- To encourage stakeholder participation
- To assess performance
- To facilitate co-operation with other libraries and organisations

### **1.5 Revision**

The Policy will be reviewed annually and revised every 3 years to reflect any changes in RCL's Strategic Plan. A revision may be prompted by any significant change in:

- Demographic composition of the LGA
- Information needs of customers
- Community demands

### **1.6 Indigenous Material**

Randwick City Library acknowledges that it is located on the land of the Gadigal and Bidjigal peoples who traditionally occupied the Sydney coast. The library actively acquires materials by and about Aboriginal and Torres Strait Islander peoples. Such materials are highlighted by the application of a sticker depicting the Australian Aboriginal Flag.
