Randwick Precinct Committee 6/05/2026	Ko, Frank	Precinct Resolution	1/26	Resolution 2026-05-06 (1) - DA 371/206
<u>Precinct Resolution 1/26:</u> Randwick Precinct calls on Council to reject DA 371/2026 - 45 Cowper St on the grounds of excessive height and breach of Council's control plans. <u>Council Response:</u> Dear Randwick Precinct Committee, Thank you for your correspondence regarding DA/371/2026 for 45 Cowper Street and the resolution adopted by the Committee. The concerns raised by the Precinct including matters relating to the proposed building height and compliance with Council's planning controls will be comprehensively considered and addressed within the assessment report for the development application. Please also be advised that, once the assessment has been completed, the application will be referred to the Randwick Local Planning Panel for determination.

Randwick Precinct Committee 6/05/2026	Zammit , Ryan	Precinct Resolution	3/26	Resolution 2026-05-06 (3) - Carrington Road Pocket Park

Precinct Resolution 3/26:

Randwick Precinct requests confirmation from Council that maintenance (particularly watering of plants) is carried out at the Carrington Road pocket park.

Council Response:

Thank you for your request regarding maintenance activities at the Carrington Road pocket park., The site is currently maintained by Council's Open Space – North team on a three-weekly cycle. During these visits, the team undertakes routine garden maintenance. Please note that no new plants have been installed at the site recently., There is no irrigation system installed within this pocket park. At present, watering is not required as the area has received consistent rainfall over the past three weeks., The Open Space team will continue to monitor the condition of the park during their scheduled visits. Should watering become necessary, arrangements will be made to deploy a water truck to support plant health as required.

Randwick Precinct Committee 1/07/2026	Havenstein, Eva	Precinct Resolution	4/26	Resolution 20260701(1) - Grants for E-bike clutter

Precinct Resolution 4/26:

The NSW Government is providing grants for local councils to target dockless shared-bike clutter. The grant will assist Council to establish designated parking areas/infrastructure.

Randwick Precinct supports Council applying for a grant under the Sharing Scheme Grant Program.

Response provided to Precinct on 11 August 2026.

Dear Randwick Precinct,

Randwick's sustainable transport team have ongoing meetings with TfNSW regarding the new shared e-bike regulations and will be accessing the grant funding to support the roll out of shared e-bike parking infrastructure. We appreciate the precinct looking out for us.

Randwick Precinct Committee 1/07/2026	Havenstein, Eva	Precinct Resolution	5/26	Resolution 20260701(2): Signage turning right out of Centennial Ave
--	----------------------------	--------------------------------	-------------	--

Precinct Resolution 5/26:

Could Randwick Council investigate signage to stop cars queuing across Centennial Ave.

Response provided to Precinct on 12 August 2026.

Dear Randwick Precinct,

Thank you for your correspondence regarding Precinct Committee Resolution 38/26 concerning the difficulties experienced by motorists turning right from Centennial Avenue into Clovelly Road, Randwick.

Council staff have investigated the intersection and identified measures to improve traffic flow and sight distance at this location., As a result, it has been decided to replace the existing No Parking restrictions across the driveway of St Margaret Mary's Primary School, located on the southern side of Clovelly Road opposite Centennial Avenue, with No Stopping restrictions.

This change will prevent motorists from queuing in the area for school drop-off and pick-up activities., Council Rangers will also be requested to undertake enforcement activities to ensure compliance with the new restrictions. It is anticipated that the introduction of No Stopping restrictions opposite Centennial Avenue will improve visibility and reduce obstruction near the intersection, enabling motorists wishing to turn right from Centennial Avenue into Clovelly Road to do so more safely and efficiently. A report outlining these measures will also be presented to the September Traffic Committee Meeting.

Thank you for bringing this matter to our attention.

Randwick Precinct Committee 5/08/2026	Havenstein, Eva	Precinct Resolution	6/26	Resolution 20260805 (1) Partial Closure of Judge Lane

Precinct Resolution 6/26:

Randwick Precinct opposes Claremont College proposal for a partial closure of Judge Lane during school hours. The Precinct requests for Randwick Council to review the proposal for consistency with other local school zones. Further noting that no issues have been identified with the current pedestrian zone arrangement, the extensive use of this laneway by the community, pedestrians and cyclists in particular and the important through links (Don Juan Avenue to Heath St and beyond).

Status of Resolutions as at 1 October 2026

Dear Randwick Precinct,

Thank you for your interest in the proposed partial closure of Judge Lane during school hours.

Council is aware of the concerns raised regarding the proposal and the importance of Judge Lane as a connection for pedestrians, cyclists, and the broader community. The proposal remains under investigation, and no decision has been made at this time. As part of the assessment process, Claremont College has been requested to provide further information to support the proposal, including details regarding pedestrian movements, traffic impacts, access arrangements, and the safety outcomes that the proposed closure is intended to address.

Once this information has been received, Council will undertake a detailed assessment of the proposal, including consideration of its potential impacts on all road users, the surrounding road network, and the wider community. Community feedback received throughout the process, including the concerns raised by the Randwick Precinct Committee, will form part of Council's assessment.

Should the proposal be supported following Council's assessment, it would be subject to community consultation and consideration by the Local Transport Forum. Any proposed road closure would also require approval from Transport for NSW. Following these steps, a report outlining the outcomes of the investigation, community feedback and any required approvals would be presented to Council for consideration and endorsement prior to any implementation.

Council will provide further information as the investigation progresses.

Randwick Precinct Committee 5/08/2026	Irvine, Jake	Precinct Resolution	8/26	Resolution 20260805(3): Repairing of Footpaths
<u>Precinct Resolution 8/26:</u>				

Status of Resolutions as at 1 October 2026

Randwick Precinct requests an update from Council regarding the plan and timeline for the repair and resurfacing of footpaths and roads in the St Paul Street / The Spot area.

Council Response:

Response provided to Precinct on 18 August 2026.

Hi Randwick Precinct Committee,

Beginning with the works within The Spot, the streetscape upgrade works consulted in 2025 are still in planning as a result of community consultation and Council resolutions. No significant renewals of footpath assets will be carried out prior to the upgrades within the business district as works would have to be redone at the time of the upgrade., Regarding St Pauls Street, outside of the business centre, footpath renewal works have been scoped up by the Roads Engineering team and are being considered in a future capital works program.

At this time, the works have been tentatively placed on the 2027/28 capital works program which will be subject to priority for inclusion., This said, if there are any locations which are of particular concern to residents or businesses, we actively encourage them to notify Council and temporary measures can be organised to improve safety and comfort of patrons., If you have any further questions, please don't hesitate to reach out.

Randwick Precinct Committee 2/09/2026	Havenstein, Eva	Precinct Resolution	9/26	Resolution20260902(1): Parking Changes
<u>Precinct Resolution 9/26:</u>				
Katrina Drewer discussed lack of progress on implementing the recommendations from the Gilderthorpe Ave and surrounding area parking consultation. Despite clear community feedback to Resident Parking Scheme (RA7) in August 2025 and an email in January 2026 confirming expanded hours and added signage in Gilderthorpe Ave Randwick, no action to date has been taken				
Randwick Precinct resolves that Randwick City Council:				
a) Implement the parking scheme changes immediately, including expanded parking hours and additional signage, as confirmed in the email from the Executive Assistant to the Manager of Engineering, following community feedback from the August 2025 resident survey.				
b) Direct the Parking Systems Officer to proceed with installation of updated signage and enforcement of revised hours.				
<u>Council Response:</u>				

Status of Resolutions as at 1 October 2026

Response provided to Precinct on 11 September 2026.

Dear Precinct members,

Council acknowledges the concerns raised regarding the implementation of the Gilderthorpe Avenue parking changes.

Following a recent change in staffing, a new Parking Systems Officer has commenced and is currently working through a number of outstanding parking requests and projects, including the Gilderthorpe Avenue parking scheme.

Before any additional signage is installed, Council will notify affected residents of the proposed changes and provide at least two weeks' notice. This will give residents an opportunity to raise any concerns or objections regarding the installation of additional signage. Once the notification period has concluded and any feedback has been considered, the Parking Systems Officer will progress the installation of the approved signage and implementation of the revised parking restrictions.
