Randwick Precinct Committee 2/07/2025	Irvine, Jake	Precinct Resolution	150515/25	Resolution 02072025(1) - The Spot streetscape upgrades, footpath extensions
RESOLUTION (Committee) Randwick Precinct expresses its disappointment with the recent Council decision regarding The Spot streetscape changes, particularly the process and outcome of the vote by Mayor Parker and Councillors Magner, Wilson, Luxford, Gordon, Said (ALP), and Willington, Veitch, and Asgari (Greens). We are especially concerned about the proposed footpath extensions in St Pauls Street, which will result in the loss of 21 short-term parking spaces, and the plan for angle parking in Coogee Bay Road, which is too far from the commercial centre to be a practical alternative. We urge Council to reconsider these aspects of the proposal in consultation with local businesses and the community. COMMENTS:28 Jul 2025 1:03pm Irvine, Jake Dear Randwick Precinct,, Council acknowledges and appreciates your feedback on the proposed streetscape upgrades in The Spot, Randwick., In line with Council's urgent business resolution (UB5/25), Council Officers are currently in the process of planning for further consultation, coupled with further assessment of the proposed upgrades to address concerns which the community and businesses may have., At this stage, there are no plans to commence with construction activities until further consultation has been carried out. Once more details are available, the community, businesses and the precincts will be invited to provide feedback on the proposal again. 28 Jul 2025 1:03pm Irvine, Jake - Completion Completed by Irvine, Jake (action officer) on 28 July 2025 at 1:03:53 PM - Response has been sent and action notes updated
