The Community Strategic Plan (CSP) is based upon extensive research and engagement with local residents over the past three years. The vision for the Randwick LGA by 2032 focuses on three key areas – our unique coastal environment, our strong sense of community and the sustainability of our natural and built environment. Subscribe to Council’s Your Say Randwick website to find out when the strategy goes on exhibition.</p> b) Economic Development Strategy <p>A Randwick Council strategy to support local businesses and the economy will be put to public exhibition for feedback. Job creation, increasing visitor spend and ensuring high levels of community satisfaction with town centres are also priorities. The plan has been developed following research and consultation with the business sector. My question: does it do enough to protect residential amenity?
