Matraville Precinct Committee 13/10/2025	Renneberg , Nicholas	Precinct Resolution	22/25	Resolution 13102025(4) - water usage in Heffron Park
<p>RESOLUTION (Committee) Resolution 13102025(4) – Residents raised question where the source of water used for watering Heffron Park comes from. Can council advise the source of water for local parks especially Heffron. With bore water being not suitable for use in the district. Resident would like to be assured the source of this water.</p> <p style="text-align: center;">COMMENTS:18 Dec 2025 1:05pm Veloso, Riza</p>				

Status of Resolutions as at 18/12/25

Email to Precinct: The source for water for irrigating sporting fields at Heffron Park is bore water. Council has a licence from the NSW Department of Climate Change, Energy the Environment and Water for this bore. Unfortunately, I cannot provide a map of the Botany Sands Groundwater Source that indicates that it is permissible for bore water to be used in this, area as the resolution of available maps is too poor. However, I can give you our approval number 10WA114671 and let you know that the bore was checked this year by the Department of Natural Resources.

Matrville Precinct Committee 8/09/2025	Santangelo, Joe	Precinct Resolution	150542/25	Resolution 08092025(1) - Matrville Business Upgrades
RESOLUTION (Committee) Council to examine the recent workmanship that has taken place at the south end of Stage 2 upgrade of the pavement and explain how this has been approved as completed to a professional standard. Residents are unhappy with the state of the work, e.g. rubber matting outside the pub is already pulling apart. The gutter on the road is well above the road level meaning that access to the bus entrance is not even. The other note to council is that Maroubra getting an upgrade is not receiving asphalt pathways but are receiving concrete payments that also look a lot more professional. Why is Matrville still seen as the poor cousin of the Randwick council.				
COMMENTS:31 Oct 2025 3:21pm Santangelo, Joe - Completion				
Completed by Santangelo, Joe (action officer) on 31 October 2025 at 3:21:44 PM - Have drafted email reply for Manager Projects. Email has been sent by Manager Projects to the precinct				
07 Nov 2025 1:33pm Veloso, Riza				
Email sent to Precinct: Thank you for your feedback regarding the recent works at the southern end of Stage 2 of the Matrville Business Upgrade project., , Council acknowledges the concerns raised about the quality and finish of the works, particularly the rubber matting outside the pub and the road gutter alignment near the bus entrance. These issues were identified during construction and have been subject to regular site inspections. On the 8 October 2025, the kerb levels were completed in accordance with the approved design, and the soft fall treatment outside the pub was revised to accommodate operational needs, including the delivery of beer kegs., , Regarding the approval process, Council follows a structured inspection approval process. Any non-compliant or damaged works are rectified by the contractor as part of this process., , In relation to the comparison with Maroubra, the materials used in each town centre are determined by Council's Town Centre Strategic Asset Plans. These plans consider site specific conditions, functional requirements, and broader urban design strategies. While Maroubra received concrete paving, asphalt treatments were selected for Matrville to meet different operational and aesthetic requirements., , Should you have any questions, please do not hesitate to contact me., , Kind Regards,, Mat

same on the opposite side.

COMMENTS:11 Nov 2025 2:13pm Veloso, Riza

Reassigning to Acting Coordinator in Open Spaces team. The first part of this resolution should read: Resolution 08092025(2) Council to investigate maintaining cnr block south side of Wassell St and Franklin roundabout.

12 Nov 2025 10:33am Magistrale, Nadia - Reallocation

Action reassigned to Renneberg, Nicholas by Magistrale, Nadia - Action sheet reassigned to Nick Renneberg on behalf of Riza Veloso.

18 Dec 2025 1:03pm Veloso, Riza

Email to Precinct:, , Thanks for this enquiry and apologies for the delayed response., , Council generally do not maintain nature strips unless they are a safety hazard or are relatively very large., , Council has planted a garden on each corner of the roundabout at Franklin and Wassell Street, these gardens are maintained by Council. Council also maintains the grassed areas at the corner of Knowles and Franklin and Franklin and Blaxland, as these nature strips are relatively large - as shown on the attached aerial image.

Matrville Precinct Committee 8/09/2025	Baradhy, Anthony	Precinct Resolution	150544/25	Resolution 08092025(3) - Daunt Ave and Bunnerong Road intersection
RESOLUTION (Committee) This intersection has been looked at many times by council and still the result is that the intersection is continuing to be affected by poor traffic flow. With the new developments taking place in Daunt St, residents believe that this intersection is only going to get worse. The street is only so wide and with parked cars either side at peak times only one car can flow, leaving the traffic to be banked up Daunt St – easterly and trying to turn right off Bunnerong Road into Daunt St heading South it banks up.				
COMMENTS:07 Nov 2025 2:39pm Baradhy, Anthony				
Ref: D05887581 and D05921841, Dear Precinct,, I refer to the request regarding Resolution 08092025(3) - Daunt Ave and Bunnerong Road intersection, “RESOLUTION (Committee) This intersection has been looked at many times by council and still the result is that the intersection is continuing to be affected by poor traffic flow. With the new developments taking place in Daunt St, residents believe that this intersection is only going to get worse. The street is only so wide and with parked cars either side at peak times only one car can flow, leaving the traffic to be banked up Daunt St – easterly and trying to turn right off Bunnerong Road into Daunt St heading South it banks up.”, Council’s Transport Engineers are scheduled to undertake traffic flow observations on Thursday, 13 November (weather permitting), during the morning and afternoon peak periods. Based on the findings of this investigation, a proposal will be prepared if required., Should you require further information, please do not hesitate to contact Anthony Baradhy – Acting Coordinator, Integrated Transport, on (02) 9093 6929 or via email at Anthony.BARADHY@randwick.nsw.gov.au, , Regards

18 Dec 2025 12:48pm Veloso, Riza				
Email sent to Precinct: Thank you for your recent enquiry regarding the resident notification about illegal dumping at 49 Baird Avenue, Matrville, as referenced in the below Committee Resolution: , RESOLUTION (Committee) RE- Resolution 10032025(6)- 49 Baird Ave -illegal dumping of rubbish. Could council please advise when the residents were notified their area is a hot spot. Resident of the street advised that he hasn't received in anything in post. Can council confirm when the mail out was., Council is pleased to confirm that letters were distributed to surrounding properties on 24 April 2025, and residents would likely have received them by 28 April 2025. These letters were sent to the following addresses:., • 1-46/518-520 Bunnerong Road, Matrville (alternate address: 49 Baird Avenue, Matrville), • 1-6/51 Baird Avenue, Matrville, • 52 Baird Avenue, Matrville, • 54 Baird Avenue, Matrville, • 56 Baird Avenue, Matrville, • 58 Baird Avenue, Matrville, • 1-6/60 Baird Avenue, Matrville, Please note that while we have referred to these as "hotspot letters," the content does not state that the recipient's property is a hotspot. Rather, it informs residents that we noticed some instances of illegal dumping in the surrounding area and encourages vigilance and proper waste disposal. A copy of this letter is attached for your reference. , If a resident has not received the letter, we are happy to provide a copy upon request.

Matrville Precinct Committee 14/07/2025	Scott, Duncan	Precinct Resolution	150516/25	Resolution 14072025(1)

Status of Resolutions as at 18/12/25

RESOLUTION (Committee) Can council please clarify the rules around parking of trailers/caravan not outside their own residency. Residents feel that there is an increase in the number of these utilities parked in front of parks and pedestrian crossing. E.g. Menin Road Matraville caravan parked in front of pedestrian crossing.

COMMENTS:13 Oct 2025 6:50pm Scott, Duncan

Manager Compliance response:, Dear Matraville Precinct Committee,, Council refers to Resolution 14072025(1), RESOLUTION (Committee) Can council please clarify the rules around parking of trailers/caravan not outside their own residency. Residents feel that there is an increase in the number of these utilities parked in front of parks and pedestrian crossing. E.g. Menin Road Matraville caravan parked in front of pedestrian crossing., 1. Duration a Vehicle May Remain on a Public Road Before Being Considered Unattended, Under the PSUP Act 2021, a registered and legally parked Class 3 item—which includes motor vehicles/trailers and caravans —may remain on a public road for a continuous period of up to 28 days before it can be subject to regulatory action on the grounds of being "unattended.". If a vehicle remains stationary beyond this timeframe without lawful authority or evident purpose, enforcement processes under the PSUP Act may be initiated. Importantly, where regulatory action is proposed, the Act provides a statutory notice period of 15 days, allowing the owner time to respond or remove the vehicle prior to any formal action being taken., 2. NSW Road Rule 172 – Stopping Near Pedestrian Crossings, NSW Road Rule 172 states:, A driver must not stop on a pedestrian crossing that is not at an intersection, or on the road within 20 metres before and 10 metres after the crossing—unless the location is regulated by a parking control sign that explicitly permits stopping., This rule is in place to protect pedestrian safety and maintain clear sightlines. Vehicles stopping or parking within these distances without appropriate signage are in breach of the Road Rules and may be subject to penalties regardless of how long they are parked., Council Rangers have undertaken patrols of Menin Road and have not observed any illegal parking activity, however, should you have specific vehicles of concern, please do not hesitate to contact us and we will investigate accordingly., Please let us know if you need further clarification or assistance.

---	------------------	------------------------	-----------	------------------------

RESOLUTION (Committee) Double B's still continue to use Bunnerong Road as their main route for heading north and south. Can council investigate placing cameras on Bunnerong Road to gauge the length of trucks that continue to use Bunnerong Road illegally.

COMMENTS:13 Oct 2025 6:53pm Scott, Duncan

Dear Matraville Precinct Committee,, I refer to Resolution 14072025(2) (Item Number: 150518/25) , RESOLUTION (Committee) Double B's still continue to use Bunnerong Road as their main route for heading north and south. Can council investigate placing cameras on Bunnerong Road to gauge the length of trucks that continue to use Bunnerong Road illegally., Council Officer Response, Council is aware that in July 2024 TfNSW began deploying artificial intelligence-enabled technology to analyse freight vehicles to help in assisting supply chain decisions that reduce congestion and lead to enhanced productivity (Please see attached fact sheet)., Under the program high-definition images of heavy vehicles are taken by the cameras which are then then classified into the type of vehicle in transit and the type of cargo being transported. This information will enable TfNSW to better understand freight movements, vehicle configuration trends and network usage across the state with the aim of assisting in long-term planning for the movement of goods in NSW. , This is a new technology and is currently being tested. The accuracy of the system is currently dependent on Transport for NSW manually classifying and training the artificial intelligence-enabled technology., On this basis the cameras are not used for enforcement. However, once the technology is proven this may be a feature that becomes available in the future., Council will follow the development of this technology with interest to identify whether any local practical applications of the technology may be considered in the future., Existing Restrictions, Under the NHVR the current restrictions exist on Bunnerong Road between Wentworth Avenue and Botany Rd, Matraville., The driver of a defined heavy vehicle (in excess of 12.5m in length) is permitted to travel from Port Botany to a destination on Beauchamp Road, Matraville, despite "No Trucks" restrictions on Bunnerong Road at Matraville (Road Rule 104) and to make a left turn from Wentworth Avenue into Denison Road at Eastgardens, despite a no left turn sign (Road Rule 91). , , Should you require further information, please do not heistate to contact me.
