PRECINCT: Matraville Precinct **EMAIL:** matprecinct@gmail.com

MEETING DATE: 08 April 2024 **FILE:** F2006/00657

ACTIONED TO: Joe Ingegneri, Manager Technical Services

RESOLUTION NUMBER: 08042024(1)

Resolution:

08042024(1) – Can Council advise how they select the species of trees currently being planted in the suburb.

Council response:

The trees selected for planting as part of our Greening our City grant were selected by our Urban Forest Planner from our Street Tree Masterplan. The aim of the grant program is to seek to maximise tree canopy in accordance with council's objectives. A copy of the Masterplan can be accessed via the webpage on our website at:

<https://www.randwick.nsw.gov.au/environment-and-sustainability/trees/preserving-our-trees>

Following feedback about the tree species from the community, we have reviewed the nominated tree species and stopped planting species that were not supported.

MEETING DATE: 08 April 2024 **FILE:** F2006/00657

ACTIONED TO: Tony Lehmann, Manager Integrated Transport

RESOLUTION NUMBER: 08042024(2)

Resolution:

08042024(2) – Can Council look at increased traffic at Norfolk Lane, recent incident has seen property damage to a resident, has been raised previous resolutions and still having traffic issues.

Council response:

The item relating to traffic survey data for Norfolk Lane, Matraville was submitted to the July Local Traffic Committee meeting held on 9th of July 2024.

The minutes of this meeting are posted on Council's website via this link

<http://www.randwick.nsw.gov.au/about-us/council-and-councillors/council-meetings/business-papers-and-minutes>.

Within the report the following was stated:

When analysing the data, it can be seen that in the morning peak, the majority of the average weekday traffic is travelling northbound. Outside of the school peak hours, traffic volumes are low and travel in both northbound and southbound directions.

There are no practical measures that Council can take to minimise this localised congestion. As with any road network surrounding a school development, there is a short period of congestion associated with pick up and drop off movements however this does disperse outside of these peaks.

The recommendation from this meeting was that the traffic surveys undertaken be noted and that the Matraville Precinct be notified about the recommendation of the Traffic Committee.

MEETING DATE: 08 April 2024 **FILE:** F2006/00657

ACTIONED TO: Joe Ingegneri, Manager Technical Services

RESOLUTION NUMBER: Resolution 08042024(3)

Resolution:

Resolution 08042024(3) – With tree planting season in progress can council investigate more trees to be planted in median strip on Perry Street.

Council response:

The current tree planting program for the 2023-24 capital works program has identified tree planting locations.

The request for additional trees in the median strip of Perry Street will be added to our list of tree planting locations in open space areas for future planting programs.

MEETING DATE: 08 April 2024 **FILE:** F2006/00657

ACTIONED TO: Joe Ingegneri, Manager Technical Services

RESOLUTION NUMBER: Resolution 08042024(4)

Resolution:

Resolution 08042024(4) – With tree planting in season more trees to be planted in Purcell Park.

Council response:

Purcell Park was recently remediated due to contamination of the land below the park. The remediation action plan limits the planting of additional trees due to the need to excavate below the capping level.

On this basis, we cannot support the request for additional planting.
